

Resuscitation and emergency care products

The complete solution

Intersurgical can offer you a complete range of products for use in an emergency and resuscitation situation. From initial mouth-to-mask ventilation, to airway management, oxygen therapy and accessories.

Bag-Valve-Mask (BVM) resuscitators

In an emergency situation time is vital, there is no opportunity to check patient history and expensive re-usable equipment can often become contaminated. To avoid cross infection from blood, vomit and secretions we offer a complete range of single-use BVM resuscitators for use in resuscitation and emergency care.

Code	Description	Mask Size	Box Qty.
7152000	BVM resuscitator, adult, 1.5L bag	5	6
7153000	BVM resuscitator, small adult/paediatric, 1L bag with pressure relief valve (40cm H ₂ O)	4	6
7151000	BVM resuscitator, paediatric, 550ml bag with pressure relief valve (40cm H ₂ O)	3	5
7154000	BVM resuscitator, paediatric, 550ml bag with pressure relief valve (40cm H ₂ O)	1	5
7150000	BVM resuscitator, infant, 280ml bag with pressure relief valve (40cm H ₂ O)	1	5

Pocket resuscitation mask

The quick and convenient, ready to use resuscitation mask

Allows you to give immediate respiratory support to your patient without compromising yourself. Vastly improving the hygiene of mouth-to-mouth resuscitation, the one-way protection valve means gas can pass from the resuscitator to patient without any physical contact between two, minimising the risk of cross contamination. The soft cuff moulds itself to the contours of the patient's face providing a comfortable air-tight seal, and the crystal clear mask makes for perfect visualisation of the patient's colour giving an immediate indication of the effectiveness of respiratory support. Any vomit, mucous or foreign body blocking the patient's airway can be easily seen. Fitted with a standard 15mm male connector, it will fit our standard resuscitation and breathing systems. An oxygen connector allows for the delivery of supplementary oxygen.

Code	Description	Box Qty.
1158000	Pocket mask with supplementary oxygen connector, headstrap, filter and protective carry case	16

Adult bagging systems – Mapleson C

The versatile Mapleson C System is ideally suited for use in intensive care, recovery areas and accident and emergency departments. Used for induction of anaesthesia, resuscitation, patient transport and 'bagging', the system offers more 'feel' of the patient's lung compliance than that provided by a BVM resuscitation system.

Code	Description	Box Qty.
2108000 (S*)	Adult, Mapleson C bagging system with 2L bag. ≥ 1.8m	15 (20*)

Make an enquiry

Paediatric bagging systems

Available in 0.5 and 1 litre options, this paediatric version of the universally accepted adult bagging system incorporates a CO₂ monitoring elbow at the patient connection for direct sampling. This system can be utilised in a wide range of clinical applications including physiotherapy, patient transfer, resuscitation, and may be used for both spontaneously breathing and hand ventilated patients in theatre and recovery.

Code	Description	Box Qty.
2124000 (S*)	Paediatric, bagging system with 0.5L closed tail bag and luer elbow. ≥ 1.8m	15 (20*)
2126000	Paediatric, bagging system with 1.0L closed tail bag and luer elbow. ≥ 1.8m	15
2812000	Reservoir bag, 1L with anti occlusion cage mount and teddy bear design, 15F neck	10
2806000	Reservoir bag, 0.5L with anti occlusion cage mount and teddy bear design, 15F neck	10

 Baggins the Bear design

 Sterile option available

(S*) Add an S to the seven digit code number for the sterile version of this product eg. 2108000S (sterile box quantity is shown in brackets).

One-piece Guedel airways

Safer by design

Combining two materials with very different physical characteristics into one moulding, our One-piece design eliminates the separate bite block found in all conventional Guedel airways. Loose or detached bite blocks constitute a real threat to patient safety and have been the subject of several hazard notices in the past. Our One-piece design overcomes all of the associated risks. As well as improved safety, the One-piece also incorporates a soft tip reducing the risk of trauma to the patient. We also offer a sterile option, providing a further choice.

ISO 5364:2016 — Colour coding guidance

In the most recent version of the ISO standard for Oropharyngeal airways, ISO 5364:2016, a new colour coding requirement was implemented, aiming to improve patient safety and provide consistency across products from different manufacturers. In order to comply with the colour coding system specified in ISO 5364:2016, it was necessary for Intersurgical to update four sizes of Guedels. Details regarding the sizes that have changed can be viewed in the table below.

Code	Description	Size	ISO	Previous Intersurgical colour	New ISO compliant colour	Box Qty.
1115120 (S*)	One-piece Guedel airway	5	12.0	Purple	Purple	70 (70*)
1114100 (S*)	One-piece Guedel airway	4	10.0	Red	Red	90 (80*)
1113090 (S*)	One-piece Guedel airway	3	9.0	Orange	Yellow	90 (80*)
1112080 (S*)	One-piece Guedel airway	2	8.0	Green	Green	100 (100*)
1111570 (S*)	One-piece Guedel airway	1.5	7.0	Yellow	White	100 (100*)
1111065 (S*)	One-piece Guedel airway	1	6.5	White	Brown	20 (20*)
1110055 (S*)	One-piece Guedel airway	0	5.5	Grey	Grey	25 (25*)
1100050 (S*)	One-piece Guedel airway	00	5.0	Blue	Blue	25 (25*)
1000035 (S*)	One-piece Guedel airway	000	3.5	Pink	Light Green	25 (25*)

This colour change effects all of Intersurgical's Guedel Airway products, including bulk-packed options.

i-gel® supraglottic airway

For use in anaesthesia and resuscitation

i-gel® is a truly unique, single use, latex and PVC free second generation supraglottic airway management device that represents the culmination of years of extensive research and development. Made from a medical grade thermoplastic elastomer, i-gel® has been designed to create a non-inflatable, anatomical seal of the pharyngeal, laryngeal and perilaryngeal structures whilst avoiding compression trauma. i-gel® is currently available in seven sizes and is supplied in an innovative, colour-coded polypropylene protective cradle or cage pack.

15mm connector

Reliable connection to any standard catheter mount or connection

Proximal end of gastric channel

Clearly displayed product information

For quick easy reference. Includes confirmation of size and weight guidance

Position guide (adult sizes only)

Easy confirmation of optimum insertion depth

Gastric channel

The i-gel® incorporates a gastric channel (except size 1). It provides an early warning of regurgitation, allows for the passing of a gastric tube to empty stomach contents and facilitates venting

Integral bite block

Reduces the possibility of airway channel occlusion

Buccal cavity stabiliser

Aids insertion and eliminates the potential for rotation

Epiglottic rest

Reduces the possibility of epiglottic 'down folding' and airway obstruction

The non-inflatable cuff

Made from a unique soft gel-like material allowing ease of insertion and reduced trauma

Distal end of gastric channel

Code	Description	Size	Weight	Box Qty.
8205000	i-gel®, supraglottic airway	5 Large adult	90+kg	25
8204000	i-gel®, supraglottic airway	4 Medium adult	50–90kg	25
8203000	i-gel®, supraglottic airway	3 Small adult	30–60kg	25
8225000	i-gel®, supraglottic airway	2.5 Large paediatric	25–35kg	10
8202000	i-gel®, supraglottic airway	2 Small paediatric	10–25kg	10
8215000	i-gel®, supraglottic airway	1.5 Infant	5–12kg	10

i-gel® O₂ Resus Pack

i-gel®^{O₂}

For use in anaesthesia and resuscitation

The i-gel® O₂ Resus Pack puts the things you need at your fingertips. The pack contains an i-gel® O₂ second generation supraglottic airway, a sachet of lubricant, an airway support strap and a suction tube, all packaged in a specially designed clear, sterile rigid pack. This unique design ensures protection of the contents, both in transit and in storage. Available in three adult sizes, the i-gel® O₂ has a colour-coded hook ring to allow quick and easy size identification.

Pack content

Supplementary oxygen port

For the administration of passive oxygenation as a component of cardiocerebral resuscitation (CCR)

Colour coded hook ring

To secure the i-gel® O₂ in position with the airway support strap

Code	Description	Weight	Box Qty.
8705000	i-gel® O ₂ Resus Pack, large adult – includes a size 5 i-gel® O ₂ with orange hook ring, sachet of lubricant, airway support strap and a 12FG suction tube	90+kg	6 
8704000	i-gel® O ₂ Resus Pack, medium adult – includes a size 4 i-gel® O ₂ with green hook ring, sachet of lubricant, airway support strap and a 12FG suction tube	50–90kg	6 
8703000	i-gel® O ₂ Resus Pack, small adult – includes a size 3 i-gel® O ₂ with yellow hook ring, sachet of lubricant, airway support strap and a 12FG suction tube	30–60kg	6

Plastic single use laryngoscope blades

Intersurgical plastic single use laryngoscope blades provide a safe, strong, light and cost-effective alternative to reusable metal versions. The range of Miller and Macintosh blades provides effective illumination and visualisation of the airway to aid with intubation and airway clearance. Our blades are compatible with the ISO7376-3 green specification handles, as indicated by the green dot near the heel of the blade.

High optical light transmission

Provides the user with an excellent light transfer to the blade tip

Engagement to handle click mechanism via two plastic lugs

Provides secure and positive connection of the blade to the handle

Single construction blade made from high impact grade ABS plastic

Rigid blade which is a cost effective, disposable alternative to reusable and disposable metal blades

Ultra smooth blade with matt finish

Smooth transition into the airway and easy passage of the tube, with no light reflection off the blade

Code	Description	Size	Box Qty.
7044000	Plastic laryngoscope blade, fibre optic, Macintosh	4	40
7043000	Plastic laryngoscope blade, fibre optic, Macintosh	3	40
7042000	Plastic laryngoscope blade, fibre optic, Macintosh	2	50

ClearLite™ anaesthetic face masks

A range of anaesthetic face masks which includes seven sizes to meet the clinical needs of all patient types and sizes. The range is available in sizes 0 neonatal to size 6 large adult. Due to the enhanced anatomical design, the ClearLite mask offers superior seal performance with minimum pressure, reducing the risk of unnecessary discomfort or potential trauma. The superior seal will also assist the clinician in providing optimum manual ventilation of the patient in both the anaesthetic and emergency situation.

ClearLite is non-PVC and phthalate free which significantly minimises the impact upon the environment, and a no hook ring version is available
